**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

Claims 2, 13-16 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase “handled in the same manner ... as a standard output wafer frame” is unclear and vague. One of ordinary skill in the art would not be able to determine what action or actions are encompassed by this terminology. Specifically, the term “standard” output wafer frame is unclear. The specification appears to relate the term “standard” to a known standard (i.e. SEMI), however this is not claimed in claims 2, 13 and 18 as it is in claim 3 and 14. Therefore, the term “standard” in claims 2, 13 and 18 does not necessarily relate to that particular standard and is indefinite.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 3653

Claim 13 is rejected under 35 U.S.C. 102(e) as being anticipated by US Patent No. 6,861,608 to Koduri et al. (hereinafter "Koduri").

In regard to claim 13, Koduri disclose an output adapter frame (waffle pack, 30) for a die sorter, comprising:

- a plurality of approximately square recesses (pockets, 32), each square recess capable of holding one square die carrier wherein the output adapter frame is handled in the same manner during the die sorting process as a standard output frame.

Each square recess is capable of holding a square die carrier, such as a waffle pack. The term "capable of" merely requires that the square recess can potentially perform the action of holding a square die carrier. Here, a die carrier could be placed on top of the square recess and the square recess would support (i.e. hold) that carrier.

#### ***Response to Amendment***

Applicant's amendments to claims 1 and 17 overcome the prior art of record since the prior art does not disclose a retention mechanism which actively biases the die carriers.

#### ***Allowable Subject Matter***

Claims 1, 3-12, 17 and 19-22 are allowed.

Claims 2, 14-16 and 18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
